Knowing Our Faculty

“Engineering and Technology”

Philosophy of the Faculty

“Bring knowledge toward practice, Create innovation,
Have morality, Social responsibility”

Resolution

Aim to produce professionals with insight knowledge
who can work, be creative,
and adhere to morality and ethics

Vision

Creating professionals in the field of engineering
and technology through work-based education

Mission

1. Creating graduates in engineering and technology with quality that meets standards and meet the needs of the business and industrial sector and the needs of the society by focusing on students to learn from real experiences
2. Creating the body of knowledge, research and development of new body of knowledge in engineering and technology leading to the creation of knowledge and innovations which are the basis for development of the organizations, society and country
3. Creating services to the community and society by provision of academic services on engineering and technology that benefit the industrial sector, community, society and country
4. Enhancing virtues and morality, cultivating students' consciousness to be virtuous graduates, strengthening professional code of ethics, and maintaining good culture
5. Creating organization to develop the Faculty of Engineering and Technology to be more effective and efficient including the increase of its competitive capability to enable it to grow sustainably and the creation of happiness in work performance for the instructors and personnel

Learning Outcomes of Program

Moral and Ethical Aspect

1. Understand and appreciate Thai culture, and realize the value of moral, ethics, sacrifice and honesty
2. Have discipline and punctuality, be responsible for oneself and society, and respect the rules and regulations of the organization and society
3. Have the leadership and followership with ability to work as a group, solve problem and disagreement based on priority order, respect the rights and opinions of others, as well as respecting mutual value and dignity of humanity
4. Have ability to analyze and assess the impact from applying engineering knowledge with individual, organization, society and environment
5. Have academic and professional code of conduct, assume responsibilities as the professional, and understand social context of engineering profession in each field from the past to the present

Knowledge Aspect

1. Have knowledge and understanding in fundamental mathematics, fundamental science, fundamental engineering, and economics for adapting to the concerned engineering work and creating technological innovation
2. Have knowledge and understanding in a significant principle, including theoretical and practical part, in the specific engineering field
3. Have ability to integrate the knowledge in the learning field with the knowledge in other concerned fields
4. Have ability to analyze and solve the problem by an appropriate procedure, and adapt the proper tools, such as computer program and so on
5. Have ability to apply the knowledge and skills in its own major for actual adaptation in problem solving

Cognitive Skills

1. Have a thought with good judgment
2. Have ability to collect, study, analyze and summarize the issues and demands
3. Have ability to systemically think, analyze and solve engineering problem, and effectively use data to supplement the work decision
4. Have imagination and flexibility in properly and creatively adjusting the concerned knowledge for development of innovation or extension of an original knowledge
5. Have ability to search for data and seek additional knowledge by its own for lifelong learning, and keep up with the change of body of knowledge and new technology

Interpersonal Skill and Responsibilities Aspect

1. Have ability to communicate with various groups of people, effectively use Thai and foreign language, and apply the professional knowledge for social communication in an appropriate topic
2. Have ability to start expressing the topic to creatively solve the problem for oneself and public, appropriately show the standpoint of oneself and group, and offer assistance and facilitate in solving problem in any situation
3. Have ability to conduct the planning and assume responsibilities for its own learning development which is in line with the engineering profession on a continuous basis
4. Know the roles, duties and responsibilities for an assignment, including individual and group work, and have ability to effectively adapt oneself and work with others as the leader and follower, and behave in an appropriate manner with the responsibilities
5. Have conscious and responsibilities regarding occupational safety and social environment

Numerical and Analytical Skill, Communication and Information Technology Application Aspect

1. Have a good computer skill for working related to the profession
2. Have the skills in analyzing mathematical information or indicating the applied statistics for creatively solving the concerned problem
3. Have ability to appropriately and effectively adapt information technology and modern communication for application
4. Have the skills in communicating the data, including speaking, writing and conveying meaning with the symbol
5. Have ability to use the calculating and engineering tool for conducting the profession in the concerned engineering fields.

Career Approaches

The graduates are able to pursue a career in engineering and technology in the public and private sectors

1. Instructors in the fields of engineering, technology and innovation
2. Researchers and developers in the engineering and technology research center
3. Engineers with expertise on engineering and technology in the industry or work agencies that require advanced technology
4. Executives in the engineering and technology research office or research center who must understand the process of research and development and can select the appropriate advanced technology

Details of Tuition Fees

1. The total tuition fees of 300,000 baht is set for the whole program, and payment of tuition fees for the whole semester at the rate specified by the Institute according to the normal 4-semester study plan.
2. Students who attend regular semester must pay tuition fees for the whole semester at the equal rate of 75,000 baht per semester for every semester.
3. The tuition fees for the whole semester do not include the following expenses:
 - Prerequisite course fees
 - Fees for overseas study tours (if any)
 - Books and learning documents in the course
 - Fees for thesis examination/independent study/comprehensive examination (in case of repeat examination) and other fees according to the announcement of the Institute

They must file a request for retrospective examination with attached documents for consideration to the Academic Promotion Office within two days of the absent examination date.

The controllable events to be considered for retrospective examination request comprise the following:

1. Uncontrollable events that occur with the students, such as sickness or accidents that require hospital treatment. As such, the students must submit **evidence or accompanying documents from the "hospital"** only.
2. Uncontrollable events that are caused by external factors and have effects on the students including emergencies occurring with the parents, natural disasters, or epidemic diseases that prevent the students from taking the examination. As such, the students must submit evidence or accompanying documents for consideration.

Online Petition Submission, Registration, Various Evaluations and Others

• Registration System (www.reg.pim.ac.th)

In the case that students want to check various information such as registration for enrollment, the class or examination schedule, study results, evaluation of the instructors, evaluation of advising instructors, graduation, and the student's own information, they can use the PIM Application (by choosing "REG" (Registrar System) to access the Registrar System (<http://reg.pim.ac.th>) by logging in to the system with the username and password each of which is a single sign-on for each student.

The screenshot displays the Registrar System (REG) interface. At the top left is the PIM logo. The header text reads 'ระบบบริการการศึกษา REGISTRAR SYSTEM' with an illustration of a lecturer. Below the header is a red progress bar. The main content area includes a 'Welcome To Educational Service System' message and a 'News Updated' section. On the left side, there is a vertical navigation menu with the following items: Logout, Academic Profile, Student Profile, Print Academic Profile, Demerit Record, Enrollment Record, Payment Channels, Print Voucher Online, Student Refund, Lecturer Evaluation, Evaluate Advisor, Assessment, Life Skill, Study Timetable, Debt / Scholarship, Grade Result, Graduate Check, Course Search, Search Student Time, Search Instructor Time, Search Room Time, Suggestion, and Login Statistic.

• Internal Services

Students can submit an Online Request Form in the Internal Services system to request educational documents, adding-withdrawing courses, adding a course (in case of repeated registration), changing the study group, suspension of study/maintaining student status ; or even in case of doubt and wishing to check academic results,

The screenshot displays the 'Internal services' portal. The header includes the PIM logo and the text 'Internal services'. A green navigation bar contains a menu icon and the text 'Online Request Form System – For students'. A sidebar on the left lists various request forms under the heading 'Request Forms (Graduate Level)'. The main content area is titled 'Course Adding Request Form' and contains a large, empty light blue rectangular box. At the bottom of the page, a copyright notice reads 'Copyright © 2014 by Panyapiwat Institute of Management.'
